We need to discuss. We must be allowed to review the information thoroughly. We just received the information last Friday and the staff are currently reviewing. Until we evaluate everything this week, I won't be able to come up with a schedule.

Subject: Aquifer Exemption

---

Stacey,

I believe we have answered all the recent questions that the Region has requested, and if there are any remaining questions I'd like to have them posed before Thursday's discussion. If there are not any more questions, then I would like to talk about a time line on Thursday to complete the process in the following 7-10 days. I believe we are at a place where the TCEQ would consider forwarding their revised request to the Region. I hope that they will have that to you before the end of the week.

Thank you.
